EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dan Tanner on 8/21/06.

The application has been amended as follows:

In claim 17, at line 6, delete " $n \geq m$ " and at line 7, after "viewpoint", insert -- wherein $n \geq m > 1$ --.

In claim 18, at line 6, delete " $n \geq m$ " and at line 7, after "viewpoint", insert -- wherein $n \geq m > 1$ --.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: references by Kohda (U.S. Patent No. 6,020,890) in view of Tulman (U.S. Patent No. 6,710,775) are made of record as describing related methods of displaying an image on multiple surfaces and having a vanishing point on a display surface, respectively. However, none of the cited prior art references teach or suggest generating a plurality of images for the plurality of display surfaces so that the plurality of divided images are expressed by using a perspective method having a different vanish point for each of the plurality of display surfaces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
